This list was put together to help radical activists establish contacts and to be used as a handy reference. It was largely compiled from magazines and other lists. Some of the addresses here are bound to be wrong, especially the older ones. 'Lang:'=languages spoken, (s: 6/92) is the source code and date confirmed. Time is listed in 24h format. There is further information on the last page.
The list is also available in computerized form from mckay@igc.apc.org and by FTP from 'ftp.css.itd.umich.edu' in the directory '/poli/Resources/radical.address.list'. Please send corrections and additions to the above email address or to:

A note about the Telephone numbers
The + in front of the number stands for the number you have to dial from your country to call internationally (011 in the U.S., 00 in Germany). To call long distance within a country you must leave out the country code. In most of Europe you then add a 0 to the front of the number, in Spain a 9 and

n the U.S. and Canada, a 1.
Another Note Most of the countries are ordered by zip code or alphabeticly by city name.
And yet another: The source code at the end of each address shows when and where each address was found. Addresses with older dates are more likely to be wrong.
